

# IMCOM-E SPONSORED ACCOUNT MASS WARNING AND NOTIFICATION SYSTEM

## End User Self-Service Registration

### OVERVIEW

The IMCOM-E Mass Warning Notification system is part of an enterprise solution for individuals who are not able to access the primary system. End Users (i.e. Users) access the IMCOM-E MWN system via a sponsor with a Common Access Card (CAC). Users must manually register emergency contact information in order to receive emergency notifications via e-mail, telephone, text message, and mobile app. Users are under no obligation to provide information, it is purely voluntary to register.

Follow the steps below to register and manage the ways in which Alert messages may contact you.
