**ISO 14001  
EMS**

## What is an EMS?

A tool to help our organization stay in conformance with legislated and voluntary environmental requirements, and to continuously improve its overall environmental performance.

**=> Umbrella of the environmental program.**

**We place an emphasis on (significant aspects):**

- Handling hazardous materials
- Saving energy
- Green procurement

**Know the environmental impacts of your job.**

- Know the possible environmental impacts of your job activities.
- Know how to improve in your area.

**YOU HAVE  
the POWER™**

**ISO 14001  
EMS**

## Know the Commander's policy letter.

- Fully integrate **sustainability**
- **Identify areas of improvement** (significant aspects)
- **Achieve continuous improvement** of the Garrison's environmental performance
- **Comply with all applicable US and Host Nations environmental laws and regulations**
- **Environmental awareness** throughout the Garrison
- **Positive relationship** with other Government agencies, host nation and local community

## What are the benefits of the EMS?

- Sustains mission readiness.
- Ensures employees know and follow procedures, which will reduce or avoid environmental impacts.
- Reduces costs, and enhances compliance with US and Host Nation Environmental Laws.
- Decreases environmental risk; proactive vs. reactive!
- Improves public image .
