- Looking for something to do this weekend? Enjoy a barge ride in Amberg on the Vils River, just like hundreds of years ago when these barges were used to transport goods. Go to: <http://tourismus.amberg.de/index.php/plaettenfahrten.html>
- **Interested in the History of the Grafenwohr Water Tower? Tour dates are available.** Construction of the Water Tower started in 1909. The 43.5 meter high, half-timbered-style tower with its bays, stair tower and the canon silhouette on became the landmark of the training area and the city. It was a miracle that it survived the bombardment of April 1945 unharmed, although bombs fell all around it. The landmark has been renovated and painted many times, beams exchanged and the roof newly covered. For info contact: Graftowertours@gmail.com
